

Art Explosion 600,000: is a software product containing over 600,000 quality images (vector, raster, photos, fine art, etc.) in a variety of formats (.WMF, .TIF, .GIF, .JPG). A step-by-step guide shows you how to use these images in your favorite Windows programs.

Adobe Creative Suite Several versions of Adobe CS are available (CS3, 4 and 5): This suite of products includes:

- ♣ Acrobat Reader—view, print & collaborate on PDF files
- ♣ Dreamweaver—website development
- ♣ Photoshop—graphics & photo editing
- ♣ Flash - animation and interactivity & for rich internet applications
- ♣ Illustrator—companion to Photoshop
- ♣ InDesign—successor to PageMaker (for flyers, cards, posters, etc.)
- ♣ Fireworks—bitmap & vector graphics editor

... and many more. The programs enable you to express your ideas with precision and smooth workflow in a professional manner. You can create stunning images and graphics, build standard websites without writing code, create visual effects and motion graphics, and craft video productions using cutting edge tools.

So, don't let homework get you down—use our software to get it done!

Installed especially for you!
Here at HKDPL, we know how creative and smart our teens are. Several software programs are available to sharpen your mind and skills, and to assist you with your assignments, so come in and give them a try! If you need help using them, we are preparing several guides and pamphlets and handouts that you can take.

HKDPL also has a few **iMac** computers for your use. Some of the programs installed are Office 2008 for Mac, Manga Studio, and Anime Studio. Adobe CS5, Planetarium, and InspireData will soon be added.
